

Evan Teal

734 Lynn Avenue, Kalamazoo, MI 49008 | (269) 716-9915 | evanteal15@gmail.com

Education

University of Michigan, College of Literature, Science, and the Arts, Ann Arbor, MI

August 2022 - (April 2026)

- Majors: Computer Science and Data Science | GPA: 3.9
- Relevant Classes Taken: EECS 281 (Data Structures & Algorithms), EECS 370 (Computer Organization), EECS 376 (Foundations of Computer Science), EECS 482 (Operating Systems), EECS 388 (Computer Security), EECS 445 (Machine Learning), EECS 485 (Web Systems), STATS 413 (Linear Regression), EECS 498 (Machine Learning Research Experience)
- Active member of Michigan Club Swimming, Michigan Rock Climbing, and Michigan Data Science Team

Hong Kong University of Science and Technology, Hong Kong SAR, China

June 2024 - August 2024

- HKUST Summer Exchange Program | Relevant Classes Taken : COMP 3311 (Database Management Systems)

Loy Norrix High School, Kalamazoo, MI

September 2018 - May 2022

Work Experience

University of Michigan, Center for Naval Research and Education

May 2025 - August 2025

Research Assistant 1, Differentiable (Kinetic) Monte Carlo

Ann Arbor, MI

- Investigated modern literature on differentiating stochastic processes in collaboration with a US Navy funded project.
- Developed efficient python scripts in JAX to make MCMC algorithms differentiable, allowing for end-to-end optimization.
- Prepared results visualizations using matplotlib for bi-weekly progress updates with my supervisor and US Navy officials.

Bronson Healthcare Group

May 2023 - August 2023

IT Analyst I Intern

Kalamazoo, MI

- Installed, imaged, and configured computers as a part of life-cycling for devices across the Bronson network.
- Coordinated with multiple systems teams to troubleshoot and solve ticketed user problems to boost productivity.
- Participated in weekly professional development conferences focused on teaching interpersonal skills for the workplace.

Leadership Experience

Michigan Data Science Team

August 2025 - Present

Co-Lead, Shazamesque (music recognition app)

- Designed an 8 week curriculum of slides and exercises to guide students through the development of a complete application.
- Replicated Shazam's audio recognition algorithm in python, establishing a REST API to provide identification in real time.
- Built a React-Native mobile app with an intuitive UI to capture user audio and process recognitions from our backend.

Project Experience

Bird Species Distribution Modelling

August 2025 - December 2025

Machine Learning Research Capstone

- Replicated the SatBird species distribution model incorporating public observations with bioclimatic and remote sensing data.
- Designed a multi-model ensemble SDM with temporal inputs, improving prediction accuracy by 20% over baseline models.
- Implemented data pipelines preprocessing, aligning, and integrating time series datasets for model training and testing.

Research in LLM Reasoning

May 2025 - August 2025

- Collaborated with Prof. David Jurgens to investigate the effects of personas on an LLM's moral decision making.
- Cleaned and prepared a large dataset of personas and moral dilemmas, while automating prompting using vLLM.
- Applied PCA to analyze LLM responses for trends in decision making and prepared data visualization for progress updates.

Michigan Data Science Team

January 2025 - April 2025

Team Member, Fruit Nutrition App

- Engineered a custom CNN to identify fruit from an image which achieved 90% test accuracy after cleaning our dataset.
- Built a Flask endpoint to serve our CNN and send classifications to an external API to grab nutritional info in real time.
- Developed a React-Native app which interfaced across platforms to display nutritional info from a camera image.

Skills

- Languages/Frameworks: Python, C++, JavaScript, React, SQL, Flask, JAX, Pandas, R, HTML, vLLM, and PyTorch.
- Familiarity with using AWS, Git, Docker, and Linux for development as well as Microsoft suite.
- Excellent time management and critical thinking skills with lots of problem solving experience.
- Outstanding written and oral communication skills with a strong work ethic and eagerness to learn.
